TRANSPORTATION BUILDS OUR ECONOMY

MAY 19-20, 2009

HYATT REGENCY CAPITOL HILL
WASHINGTON, DC

Dear Transportation Construction Industry Leader:

Join your industry allies in Washington, D.C. on May 19-20 for the Transportation Construction Coalition's 2009 Legislative Fly-In. Never before has the transportation construction industry faced a more critical time! Congress needs to hear from you about the importance of transportation infrastructure investment to the nation's economy and the quality of life of all Americans.

The new Congress and Administration have less than nine months to draft and approve legislation to reauthorize critical highway, bridge, transit and aviation construction programs. A key issue to be addressed is how to fund highway and transit infrastructure improvements. With the Highway Trust Fund's balance essentially at zero, new revenue will be needed to provide the investment necessary to address current and future demands. The federal aviation programs also remain in limbo with new authorization months overdue.

The recently enacted economic stimulus legislation provides funds to keep state transportation programs moving forward and help boost our economy at this critical juncture. The responsibility for continuing the job retention/creation and other economic benefits of the stimulus measure's transportation investments will fall to the next surface transportation reauthorization bill. This debate will be about more than economic recovery — it will also determine the future of the federal highway and transit programs.

The transportation construction industry cannot afford to sit back and wait for Washington to act. Now is the time to demand action from your Senators and Representative about transportation needs in your state and the nation.

Join hundreds of other industry leaders in delivering the message — **Transportation Builds Our Economy** — to Capitol Hill on May 19-20 in Washington, D.C.
